16 hours free childcare for all 3 and 4 year olds and extended to 2 years old for low income families.

ENVIRONMENT

Only Sweden and Finland have bettered your Scotland in cutting greenhouse emissions in Western Europe.

Fracking and coal gasification cannot take place in Scotland.

More than two thirds of your Scotland's energy is now met from renewable sources.

Your Scotland is anti-nuclear whether for power generation or weapons of mass destruction.

This leaflet is published and funded by a group of independence supporting Brechin pensioners.

Your Scotland is not that portrayed in the British media, whether broadcast or printed.

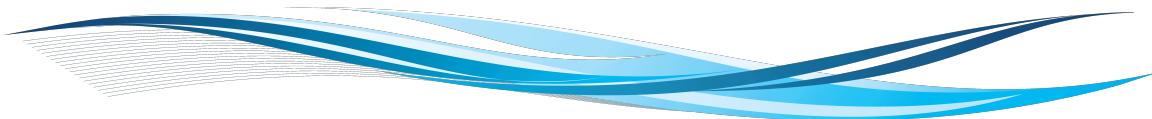

Your Scotland has been blessed by nature, bountifully endowed with natural resources, and a people who are clever, resourceful but also compassionate and caring. Yes we have our problems but you have much to be proud of.

All of us who contributed to this leaflet are at least in the autumn of our lives.

Our burning belief is that we leave a better world for our children, grandchildren and future generations.

Being attached to an increasingly dysfunctional and deluded City of London dominated Westminster leaves us with little hope that our ambitions for future Scottish generations can be realised.

We are a good people, let us become a confident people. Have faith in your own.
